Filing
Made Simple

Dealership-wide Solutions   **U.S. and Canada**

ColorFile® Labels On-Demand

Make the filing process easier and more efficient with single-strip labels you can print right in your dealership.

File in a Flash

Make filing simpler and faster with color-coded strip labels that you can produce right in your dealership – on demand. With a single-strip label, you can save up to 60% of the time it traditionally takes to create a new file and apply multiple labels.

Integrate ColorFile Labels On-Demand into your current filing system with exact visual and color match, or create a new filing system tailored to your organization's needs. Whether alpha, numeric, year, month, make, or text, the ColorFile Labels On-Demand system has the technology to quickly take your information and print out complete and easy-to-read, color-coded labels for your files.

Simple to Create

ColorFile Labels On-Demand is the perfect solution for any dealership that wants an easy and efficient way to generate labels. The ColorFile Labels On-Demand software package* includes five standard templates to help you create labels that fit seamlessly with your color-coded system. We can even design custom templates for your dealership. Create files faster in three easy steps:

1. Choose a template to create your label.

2. Type in the information to be coded.

3. Preview and print.

Available in both desktop and Internet versions.

ColorFile® Labels On-Demand

Files at Your Fingertips
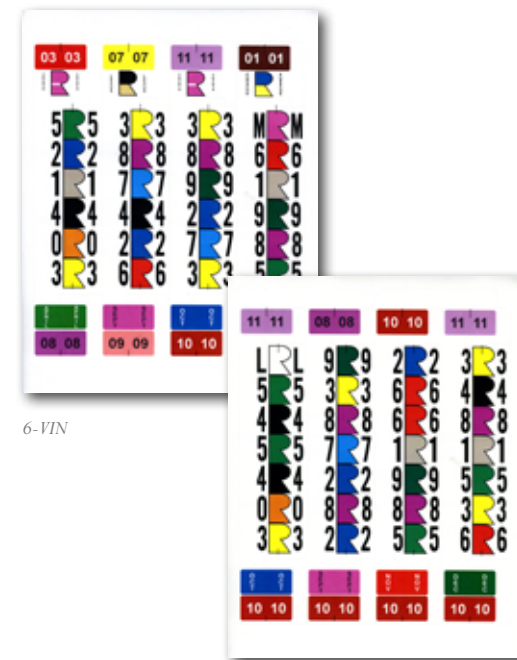

Make new file folders quickly and easily with:

- Labels – Printed on bright, white, printer-compatible label stock and designed specifically for easy application to your folders, ColorFile labels work seamlessly with your existing color-coded filing system. Choose from our patented 6- or 7-digit VIN design, accounts payable, month/year, or deal jacket labels to keep your records up to date.

- Laminates – For added protection from water, oil, grease, and UV rays that could shorten the life of your color-coded files, ColorFile laminate protectors help prevent harmful damage to your files, saving you from re-labeling worn folders and wasting time and money.

Color Code It

Color-coded filing systems have been proven to be the most efficient method of organizing hard copy documents, dramatically reducing filing and retrieval time and preventing misfiled records. ColorFile Labels On-Demand improves the efficiencies of color-coded file identification by enabling you to automatically generate printed strip labels directly from your color printer.

Powerful features include:

- Side tab or custom label formats.
- Alphabetic, numeric, or custom indexing.
- Text and graphics.
- Easy import and export functions for data integrity.
