## ACTIVATING "IE MODE" IN THE MICROSOFT EDGE BROWSER

With the sunsetting of Internet Explorer on June 15th, 2022, Microsoft has built a feature in the Edge Browser called "IE Mode", which will allow for the continued use of Internet Explorer and it's unique script control, "Active X".

## To activate IE Mode:

- 1. Open the Microsoft Edge browser
- 2. In the upper right corner, click on the Ellipsis (3 dots)
- 3. Select Settings Settings
- 4. From the menu on the left side, select "Default Browser"

🗔 Default browser

5. Under Internet Explorer compatibility select "Allow sites to be reloaded in Internet Explorer mode"

Allow sites to be reloaded in Internet Explorer mode

Allow  $\checkmark$ 

Add

When browsing in Microsoft Edge, if a site requires Internet Explorer for compatibility, you can choose to reload it in Internet Explorer mode

6. In the Internet Explorer mode pages section, click "Add"

## Internet Explorer mode pages

These pages will open in Internet Explorer mode for 30 days from the date you add the page. You have 1 page that'll automatically open in Internet Explorer mode.

7. A window will pop up, enter in the URL <u>http://www.colorfilelabels.com</u>

Add a page					
Enter a URL:					
http://www.colorfilelabels.com/					
Add	Cancel				

8. Browse to the website, www.colorfilelabels.com. Your toolbar should look like the photo below, a small Internet Explorer icon appears in the far left of the address bar & below that it will say "You're in Internet Explorer mode..."
